

The Riddle of the Exporter

Exporting Regulatory Compliance

Topics We Will Cover:

- Legal Right to Export
- USPPPI
- Government Agencies That Control Exports
- The EAR-Export Administration Regulations
- Types of Exports
- How to Determine if You Need a License to Export
- Process to Obtain a License
- Filing Requirements-AES
- Foreign Regulatory Issues & Compulsory Marks
- Red Flags & Penalties

© www.123rf.com

Alphabet of Acronyms

- **AES**-Automated Export System
- **BIS**-Bureau of Industry & Security
- **CCL**-Commerce Control List
- **CCC**-China Compulsory Certification
- **CCC**-Country Control Chart
- **CE**-Conformité Européen
- **EAR**-Export Administration Regulations
- **ECCN**-Export Control Classification Number
- **EEI**-Electronic Export Information
- **FCPA**-Foreign Corrupt Practices Act
- **ITAR**-International Traffic in Arms Regulations
- **MRA**-Mutually Recognized Agreement
- **NLR**-No License Required
- **OFAC**-Office of Foreign Asset Control
- **RoHs**-Restriction of Hazardous Substances
- **Schedule B**
- **SED**-Shipper's Export Declaration
- **SDN**-Specially Designated National
- **USPPI**-U.S. Principal Party of Interest
- **WEEE**-Waste of Electrical & Electronic Equipment

Legal Right to Export

- Every U.S. citizen has the right to export without obtaining a license. However certain items do require a license and certain parties cannot be the recipient of your products.
- **You** are considered the USPPI, the U.S. Principal Party of Interest
- **You**, as the exporter, must determine whether your export requires a license.

Who Controls Exports?

U.S. State Department-Directorate of Defense Trade Controls (DDTC)-defense articles & services, ITAR

Commerce Department-Bureau of Industry and Security (BIS)-"dual use" items, EAR

Bureau of Census-trade-statistics and the AES

Treasury Department-Office of Foreign Assets Control (OFAC) oversees embargo and sanction lists

Department of Homeland Security -Customs and Border Protection (CBP) enforces all exports at U.S. borders.

EAR-Export Administration Regulations

- Goods in the U.S.
- Goods outside the U.S.
- Foreign Nationals
- U.S. Citizens

3 kinds of Exports?

- #1. **Tangible Exports**

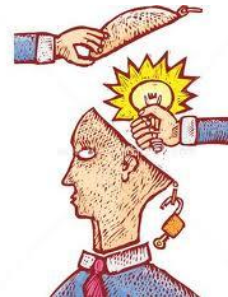

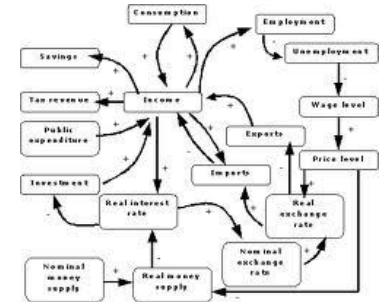

- Shipments through a US port via air, ocean, truck, rail, mail, etc.

3 kinds of Exports?

■ 2. Intangible Exports

- Electronic transfers (including email, fax and Internet downloads)
- Technical reports, drawings, data or source code released to foreign nationals
- Also includes “deemed” exports via someone’s brain!

3 kinds of Exports?

■ #3. Re-Exports

- Shipments from one foreign country to another of US-origin goods or foreign made goods containing certain US-origin parts, components or materials.

Do I Need a License?

The Big 4 Questions

1. What are you exporting?
 2. Where are you exporting?
 3. Who will receive your item?
 4. How will your item be used?
- ★ If your item has a DUAL USE, it may require a license.
 - ★ Even if your item is paper clips, it cannot be shipped to Osama Bin Laden.

Do I Need a License?

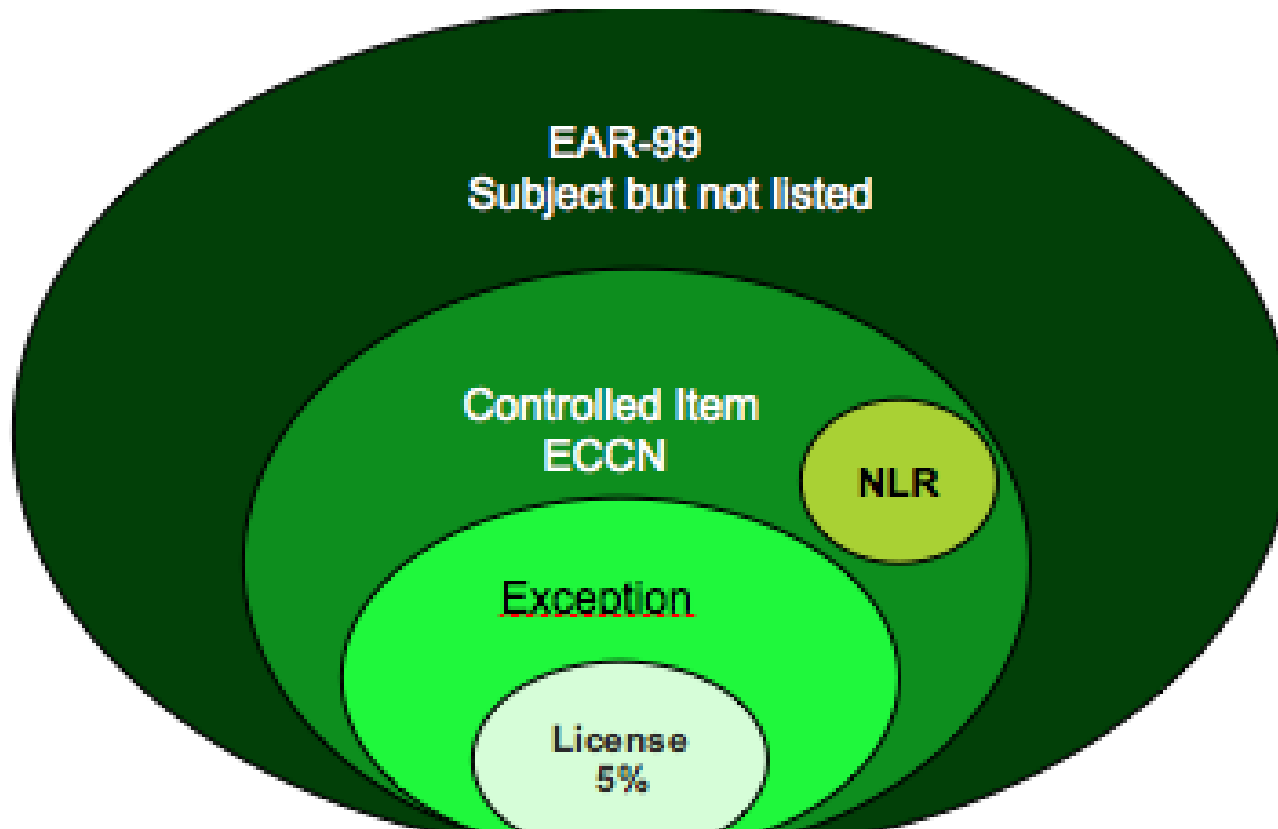

NONE

ALWAYS

Commercial Dual Use Military

Do I Need a License? What are the Odds?

Do I Need a License?

■ 10 Categories in the EAR:

- 0) Nuclear materials, facilities, equipment...
- 1) Materials, chemicals, microorganisms, toxins
- 2) Materials processing
- 3) Electronics
- 4) Computers
- 5) Telecom & information security
- 6) Sensors and lasers
- 7) Navigation and Avionics
- 8) Marine
- 9) Propulsions systems, space vehicles

5 Groups in each Category

- A. Systems, equipment, components
- B. Test, inspection, and production equipment
- C. Material
- D. Software
- E. Technology

Do I Need a License? The Steps to Find Out

- #1 Know & classify your item
- #2 Check if your item is on the CCL

- #5 Check the LISTS
 - Denied Party
 - Specially Designated Nationals
 - Unverified
 - Entity
 - Non-Proliferation Sanctions
 - Embargoed Countries

Do I Need a License? The Steps to Find Out

- **#3 Determine the ECCN**
- **#4 Cross Check the ECCN with the CCC**

- **#5 Check the LISTS**
 - Denied Party
 - Specially Designated Nationals
 - Unverified
 - Entity
 - Non-Proliferation Sanctions
 - Embargoed Countries

**Not yet, still
more to do!**

Do I Need a License? The Steps to Find Out

- #6 Apply for Export License Through SNAP-R
- #7 Must file AES regardless of value

Do I Need a License?

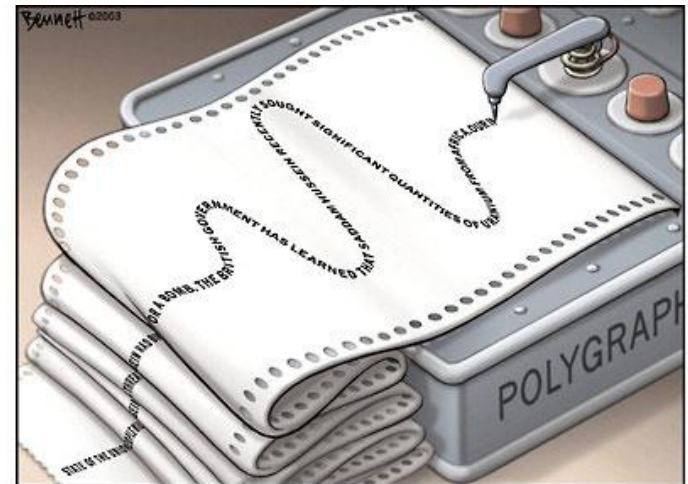

The Steps-example

#1 Know & classify your product: polygraph equipment for law enforcement

#2 Is it on the CCL?

#3 Read description & determine its ECCN

#4 Determine license requirements on the CCC

#5 Lists to Check

**Bureau of Industry and Security
U.S. Department of Commerce**

[What's New](#) | [Sitemap](#) | [Search](#)

[Home](#) > [Compliance And Enforcement](#) > Lists to Check

Lists To Check

The following lists may be relevant to your export or reexport transaction. For your convenience, the agencies responsible for these lists have consolidated these lists into one downloadable file. To access the consolidated list, go to www.Export.gov.

[Denied Persons List](#)
A list of individuals and entities that have been denied export privileges. Any dealings with a party on this list that would violate the terms of its denial order is prohibited.

[Unverified List](#)
A list of parties where BIS has been unable to verify the end-user in prior transactions. The presence of a party on this list in a transaction is a "Red Flag" that should be resolved before proceeding with the transaction.

[Entity List](#)
A list of parties whose presence in a transaction can trigger a license requirement under the Export Administration Regulations. The list specifies the license requirements that apply to each listed party. These license requirements are in addition to any license requirements imposed on the transaction by other provisions of the Export Administration Regulations.

[Specially Designated Nationals List](#)
A list compiled by the Treasury Department, Office of Foreign Assets Control (OFAC). OFAC's regulations may prohibit a transaction if a party on this list is involved. In addition, the Export Administration Regulations require a license for exports or reexports to any party in any entry on this list that contains any of the suffixes "SDGT", "SDT", "FTO", "IRAQ2" or "NPWMD".

[Debarred List](#)
A list compiled by the State Department of parties who are barred by §127.7 of the International Traffic in Arms Regulations (ITAR) (22 CFR §127.7) from participating directly or indirectly in the export of defense articles, including technical data or in the furnishing of defense services for which a license or approval is required by the ITAR.

[Nonproliferation Sanctions](#)
Several lists compiled by the State Department of parties that have been sanctioned under various statutes. The Federal Register notice imposing sanctions on a party states the sanctions that apply to that party. Some of these sanctioned parties are subject to BIS's license application denial policy described in §744.19 of the EAR (15 CFR 6744.19).

Don't Forget!

Filing the EEI with the AES

The **1** Rule for EEI

- ◆ ONE USPPI shipping their merchandise, to
- ◆ ONE foreign consignee, on
- ◆ ONE carrier moving the product out of the U.S., on ONE day,
- ◆ Valued at over \$2,500 per Schedule B number or when a license is required
- ◆ **Any product requiring a license must be filed regardless of value.**

Foreign Regulatory Compliance-The Other Side

- Before agreeing to ship your commodity, you should review:
 - U.S. laws that might affect your shipment to that country.
 - destination country's regulations
 - destination country's import license requirements

U.S. Laws That Might Affect Your Shipment

- OFAC-Office of Foreign Assets Control
- FCPA-Foreign Corrupt Practices Act
- Anti-boycott
 - Exporters must report any requests to participate in a boycott (e.g., of Israel) to the Bureau of Industry and Security quarterly. Check Letters of Credit!

Foreign Regulations on The Other Side

- **How do regulatory requirements impact your ability to introduce products into global markets?**
 - Government Requirements?
 - Legal establishment of company in the country required?
 - Is partial country ownership required?
 - Standards or Licensing ?
 - ANSI UL 60950 is an national standard as is EN 60950 – both are based on IEC 60950 an international standard
 - Recognition of Test Results?
 - Must test In country or accept MRA-Mutual Recognition Agreements?
 - Design Changes Needed?
 - Labeling in metrics? In a foreign language?

Do These Look Familiar?

Foreign Marks-CE

- Mandatory in the EU, only mark that allows free access within the EU
- Conformité Européen
- Can be self certified
- In most cases requires ISO9000

Foreign Marks-WEEE

- **WEEE-Waste of Electronic & Electrical Equipment specifically for waste disposal**
- **WEEE product producers have to:**
 - “Take back” products for proper disposal
 - Make arrangements with local disposal system
 - Fees to cover disposal costs
 - Use a special disposal symbol on the product

Foreign Marks-RoHS

- **RoHS-Restriction of Hazardous Substances is specifically for safety**
- **Restriction of the use of Hazardous Substances directive:**
 - Covers similar list of products as WEEE
 - Requires manufacturers to limit use of
 - Lead
 - Mercury
 - Cadmium

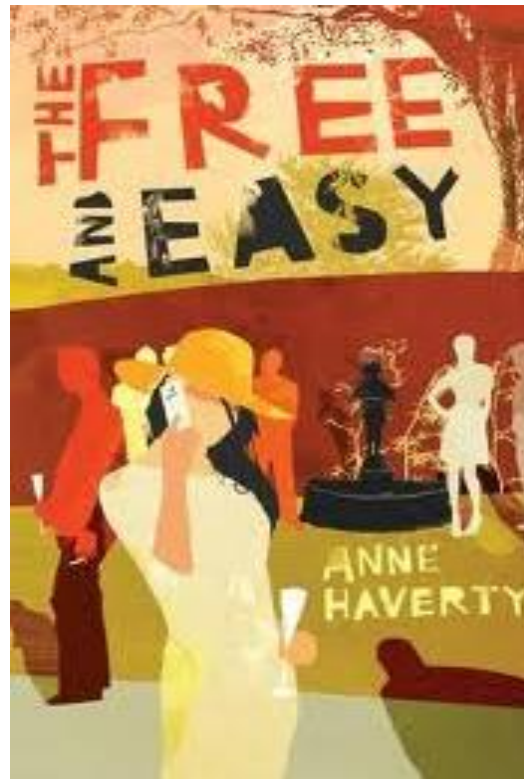

Foreign Marks-CCC

- **China Compulsory Classification**
- Before being marketed, imported, or used, a product falling under the CCC Catalog must be certified by a certification body designated by the Chinese regulatory bodies.
- There are over 100 categories of products covered. More to be added in the near future.

The End of:

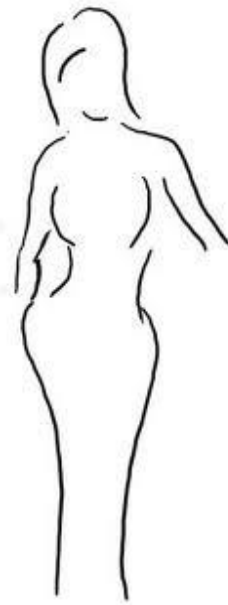

Penalties\$\$\$\$\$\$\$\$

*Are stripes your most
flattering look?*

FTAs-Free Trade Agreements

- Free Trade Agreements are like women:
 - Can't live with 'em
 - Can't live without 'em

Red Flags?

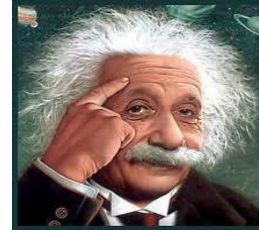

- ❖ The customer or its address is similar to one of the parties found on the Commerce Department's [BIS's] list of denied persons.
- ❖ The customer or purchasing agent is reluctant to offer information about the end-use of the item.
- ❖ The product's capabilities do not fit the buyer's line of business, such as an order for sophisticated computers for a small bakery.
- ❖ The item ordered is incompatible with the technical level of the country to which it is being shipped, such as semiconductor manufacturing equipment being shipped to a country that has no electronics industry.

- ❖ The customer is willing to pay cash for a very expensive item when the terms of sale would normally call for financing.
- ❖ The customer has little or no business background.
- ❖ Routine installation, training, or maintenance services are declined by the customer.
- ❖ Delivery dates are vague, or deliveries are planned for out of the way destinations. The shipping route is abnormal for the product and destination
- ❖ A freight forwarding firm is listed as the product's final destination.

Skill

- What are the key points of this session?
- Name the acronyms or terms that are important to take away.
- What are the key questions to ask?
- What are the next steps?
- What are the red flags to watch out for?
- Any great tidbit of information?
